

Wireless Bluetooth Communication

- **View analyzer data away from analyzer on a netbook or computer (IE: the emission controls for engines, boilers and generators)**
- **Data automatically uploads to netbook or computer for easy data analysis**
- **No need for wires to communicate to computer**
- **100 meter range or 330 feet (depending on environmental factors)**
- **Save on printer paper rolls**
- **No additional power sources need to power communication**
